PROFESSIONAL SUMMARY

Results-driven Information Technology graduate (Second Class Upper Honours, JKUAT) with hands-on experience in IT support, network administration, and systems troubleshooting across academic and business environments. Builds on a strong support and infrastructure background with practical web development skills, applied through self-directed projects including a business ledger tool and a learning management system. Adept at Windows and Linux administration, Active Directory, and helpdesk tools including Jira and Zendesk. Looking to bring solid technical skills and genuine drive to a dynamic environment with room to grow and contribute meaningfully.

PROFESSIONAL EXPERIENCE

IT Intern · Straight-line Enterprises One-Way Kenya

Jun 2025 – Sep 2025

- Diagnosed and resolved 10–15 system and network incidents weekly, maintaining uninterrupted business operations.
- Reduced system downtime by conducting scheduled preventive maintenance and early-stage fault detection.
- Administered user accounts, provisioned devices, and delivered hands-on technical support to staff across departments.
- Executed routine system health checks and performance monitoring to ensure operational stability.

IT Intern – ICT Department · USIU-Africa

May 2024 – Aug 2024

- Resolved 15–25 IT support tickets weekly for staff and students, improving response time and reducing recurring downtime.
- Configured and deployed routers, switches, and wireless access points across multiple campus buildings.
- Performed routine system diagnostics and preventive maintenance to sustain network uptime and reliability.
- Troubleshooted and resolved LAN/WAN connectivity issues, improving end-user experience and reducing escalations.
- Delivered technical support to 50+ staff and students in a high-demand institutional environment.

PROJECTS

Duka Ledger · HTML, CSS, JavaScript

- Built a working MVP of a digital ledger and savings-nudge application for informal Kenyan traders, addressing gaps in day-to-day bookkeeping and cash management.
- Designed the data model and interface logic for recording sales, expenses, and savings goals, with a simple interface suited to low-tech-literacy users.

LearnHub · Next.js, TypeScript, Tailwind CSS

- Developed a learning management system enabling course creation, content delivery, and progress tracking for learners and instructors.
- Built the interface and application logic with Next.js and TypeScript, styled using Tailwind CSS.

CYBERSECURITY SELF-DEVELOPMENT

Pursuing practical skills in ethical hacking, network security, and system hardening through structured platforms including TryHackMe, covering vulnerability assessment, penetration testing fundamentals, and secure network configuration.

EDUCATION

BSc Information Technology

Jomo Kenyatta University of Agriculture and Technology · 2021–2025

Second Class Upper Honours

Kenya Certificate of Secondary Education

Agoro Sare High School · 2017–2020 · Mean Grade: A-
